

Greg Sbrocco

Executive Vice President, Global Operations

As part of the merger of GE Transportation and Wabtec in 2019, Greg was named Executive Vice President, Global Operations for Wabtec.

Greg's career began with GE Energy as an Environmental Engineer. In 1997, he moved into a Business Development role where he worked on numerous acquisitions and integrations. In 1999, Greg relocated to Budapest, Hungary as Start Up and Operations Manager for GE Energy's Greenfield Manufacturing plant. After three years overseas, Greg moved to Atlanta as GE Energy Services EHS Manager responsible for greater than 70 facilities. In 2005, Greg joined GE Oil & Gas as General Manager of Operations for GE's pipeline inspection business.

In 2008, Greg joined GE Transportation as the New Product Introduction Sourcing Manager. In 2010, Greg he served as the Global Supply Chain leader for GE's Transportation's Propulsion and Specialty Services, which includes products such as Mining Propulsion, Drill Motors, Wind Gearboxes, and Marine & Stationary Power. In 2013, he was responsible for the development and the leadership of the Reliability/Quality Center of Excellence for GE Transportation. In 2014, he was promoted to General Manager, Global Supply Chain-Services, which included responsibility of GE Transportation's Engine plants in Grove City and 7 other manufacturing and service locations. In October 2017, he was promoted to General Manager of GE Transportation's Global Supply Chain where he was responsible for all operational and sourcing activities for the business.

Greg was born in Cleveland, Ohio. He earned his B.S. degree from Purdue University. Greg is married with two children and has residences in Erie and Pittsburgh.
